

About Us

Hosei University, established in 1880, is one of the leading Japanese universities with a long history. The campus is located in Tokyo, the heart of Japan, and it is well equipped to study and research on cutting-edge science and technology.

IIST, Institute of Integrated Science and Technology, is an English based graduate program for studying integrated science and technology in Master's and Doctoral course. IIST was established cooperatively by the Graduate School of Computer and Information Sciences and the Graduate School of Science and Engineering for students to acquire interdisciplinary wisdom. Additionally, Japanese language classes are available as options to enrich students' language skills.
